

Tolnagro Ltd becomes the official distributor of Provet Cloud veterinary practice management solution in Hungary

6th of June 2017

As from May 2017, Tolnagro Ltd. becomes the distributor of Provet Cloud veterinary practice management system in Hungary. Provet Cloud is the leading solution for progressive veterinary practice management in the Europe. With the Provet Cloud Hungarian veterinary practitioners get a unique opportunity to enhance their business, quality of veterinary care as well as relationship with their customers - animal owners.

Dr. József Varga, CEO of Tolnagro, said: *“Tolnagro is the leader of the veterinary pharmaceutical wholesale market in Hungary. Our new cooperation with Provet Cloud extends the wide range of products and services we offer for veterinarians for over twenty years. We strongly believe, that Provet Cloud presents major benefits for our customers, to whom we would like to offer a modern tool to streamline their practice.”*

Mr Janne Huttunen, CEO of Finnish Net Solutions, developer of Provet Cloud, said: *“We are delighted to start working with Tolnagro. They are a strong partner for us in Hungary. The Agreement allows us to enter to a new market as we want to offer our high quality services to more users in the Central European space”.*

Under this agreement Provet Cloud will be working closely with Tolnagro Ltd to respond to the needs of the Hungarian veterinary community. Tolnagro will represent the Provet Cloud product and provide first-level support to users of the system in Hungary.
